SAFETY SHOES & PROTECTIVE FOOTWEAR

Everything we do, we believe in challenging the status quo.

We believe in thinking differently.

The way we challenge the status quo is
by making our products beautifully designed & highly durable.

We just happen to make great Safety Shoes.

Want to buy one?

Maintenance Tips

In order to maintain the quality of **Odron™** footwear we recommend some practical advice for the best care and protection as below :

- Always select and wear appropriate size of footwear which gives good grip and wearing comfort.
- Always wear/remove your shoes in appropriate standard manner so that shoes can keep their correct and fine form for a long time.
- Always wear your shoes with socks.
- Cleaning must be done on daily basis.
- Conditioning must be done on regular basis to maintain moisture level in leather.
- Avoid use of your footwear in water.
- In case of contact with any chemical or acid or other foreign body contamination, clean your footwear instantly.

Above mentioned easy steps will helps to maintain the footwear in its original form for long time. Poorly maintained shoes can quickly become uncomfortable, start to smell, and become scuffed and dirty which leads to shorten its wearing life. It is also suggested to change your footwear once it is not capable to give required safety protection.

Who

Zedek is highly qualified network of strategic partners that allow us to meet wide - ranging market and customer requirements.

We always focus on developing products which minimize workplace hazards, highly durable & acceptable by every mind

Product

What

We develop, manufacture and distribute industrial safety shoes that meet the highest standards in terms of quality, function and innovation.

"Zedek" is a promise of quality. We have set demanding standards for our manufacturing sites and products, which also apply to all partners in our network.

Quality

Why

We are pursuing the goal of generating measurable added value & making every step "a safe step".

We don't focus on just giving a product, we believe in stand with our services and take responsibility of making "every step a safe step". We are committed to provide safe working experience to our consumers.

Service
